A Typew r with a pers lity

Personality is hard to define but easy to recognize.

It is a quality that impresses. It can be felt before a word is spoken. It often marks the difference between failure and success.

The L. C. Smith & Bros. Typewriter has a distinct character. Its silent running and ball bearing features denote a personality that is companionable, even tempered and strong.

The "Silent Smith" grows upon you. Its personality wins and keeps friends.

LAKE D & C LINES

For Business and Pleasure Trips Use D & C Line Steamers

The Delights of a Lake Trip

REST after work is necessary to human endurance, and holidays are a wise economy. The Great Lakes of America offer more vacation opportunities than any other source in the country. The steamers of the Detroit and Cleveland Navigation Company operating to all important ports are unrivalled in point of elegance, comfort and quality of service—the perfect freedom offered by the saloon and promenade decks, the commodious state rooms, luxurious furnishings and excellence of cuisine make life aboard these floating palaces, a solace to the weary mind and body.

WHERE YOU CAN GO

Daily service is operated between Buffalo and Detroit, Detroit and Cleveland, six trips weekly between Detroit and Mackinac Island, the historic summer resort of the North Country, and from July 1st to September 14th a special steamer will be in commission between Cleveland and Mackinac Island, stopping at Detroit enroute every trip. During July and August special daylight trips between Detroit and Cleveland.

INTRODUCTION

The volume herewith presented to patrons embodies the 1921 Edition of Boyd's Directory of the District of Columbia. Especal care has been exercised to secure a thorough enumeration of the residents of the District and the manifold business interests. The work presents as complete and comprehensive a Directory as it is possible to produce, having in view the volume of information and statistical data assembled for compilation.

The several features of the Directory which have given such satisfaction to patrons in former issues have been retained, while several have been amplified and improved, as suggested by experience. The statistical review is especially noteworthy.

The Directory contains 2170 pages and five essential departments as follows:

The MISCELLANEOUS DEPARTMENT, pages 13 to 65, include a variety of miscellaneous information such as the Federal and District Governments, with their various departments and bureaus, Diplomatic Corps, Banks and Trust Companies, Building and Business Associations, Cemeteries, Churches, Congressional Directory, Courts, Dispensaries, Homes, Hospitals and Asylums, Labor Organizations, Libraries, Newspapers, Parks, Schools, Secret and Benevolent Societies and Organizations, etc., etc.

The BUYERS' GUIDE. This feature occupies pages 101 to 230. In the Guide will be found classified according to lines of business and professions attractive display advertisements and business cards of those engaged in various industries and professions. "The Directory is the Common Intermediary between Buyer and Seller." If those making use of the information contained in the Buyers' Guide would only state the source of their information every business man in the city would soon come to a realization of the importance of business or that of his company not only having proper representation in the Buyers' Guide, but also of being properly registered under all headings covering his lines of business in the Classified Business Directory.

The ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations is embraced in pages 231 to 1682.

The STREET GUIDE AND DIRECTORY OF HOUSEHOLDERS is included in pages 1683 to 2036.

The CLASSIFIED BUSINESS DIRECTORY is contained in pages 2037 to 2170.

The Index to Contents and Index to Advertisements will be found on pages 10 to 12.

CIVIC, COMMERCIAL AND INDUSTRIAL STATISTICS CONCERNING WASHINGTON

Population

The Federal Census of 1920, credited the District of Columbia with the following items of population: Georgetown (original limits), 17,083; Washington (original limits), 268,208; remainder of District, 152,

280. Total actually representing but one city: 437,571, a gain of 106,502 over the population for 1910. The Federal Census was taken over a year previous to the enumeration for this Directory, and a very large number of persons employed in the District were not included in the Census by reason of their homes being elsewhere and these persons are included in the list of names in this Directory.

The total number of names in the present Directory is 188,551.

In this number is included no firm name, church, school, institution nor anything else which does not stand for the name of an individual. Using the multiple of 2½—to allow for the names of women and children not enumerated—we have 471,377 as the estimated population of the territory covered by the Directory at the time the enumeration was made.

Area 69.245 square miles (water 8 square miles), acreage 44.800; tidewater at the Potomac River with a 21-foot channel; assessed valuation $426,623,630.00; bonded debt $2,152,626.40; tax rate $1.95 per $100; miles of streets 1096; miles of paving 520; miles of electric street railway 203; miles of gas mains laid 782.

Bank and Trust Companies

The number of banks and trust companies in the District is 45, deposits in 1920 were $177,358,000; bank clearings in 1920 were $897,109,844.12, an increase from 1919 of $82,647,803.03

1520666

Building Statistics

The estimated value of building operations, including repairs, etc., during the year, exclusive of buildings under construction by the Federal Government, is $22,638,862, an increase over the preceding year of $12,130,551.

The number of permits issued for all building construction work was 7,525, an increase of 2,577 over the fiscal year 1919. The total number of new buildings was 2,346, an increase of 748. Of these, 4,506 were dwellings, an increase of 1,072; 26 were apartments, an increase of 5; and 1,196 business buildings, an increase of 368. The number of repairs, etc., was 4,506, an increase of 1,072.

It is estimated that there are in the District of Columbia 68,127 brick buildings and 27,181 frame buildings. There were 1,571 brick buildings erected during the year and 486 frame buildings; 73 brick buildings razed and 111 frame.

Fire Protection

The fire department consists of 650 men, 38 station houses, 89 horses, 11 autos, 33 engines, 33 hose and chemical wagons, 15 extension ladder trucks; value of buildings and lots $921,239.62. The report of the chief engineer of the fire department shows that the total number of alarms received during the year was 1,793. The total fire loss was $429,878, covered by an insurance of $17,799,700. This loss is a decrease of $537,555 over the loss of the preceding year. Sixteen fires occurred which necessitated the sounding of additional alarms, and ten single alarm fires, with a loss in excess of $5,000 each, occurred. These fires alone caused a loss of $429,878.

Police Department

The department has 935 policemen, 58 crossing policemen, 4 policewomen, 68 civilians, total 1,061; stations 13. Total number of arrests in 1920 was 48,930 as against 53,356 in 1919. Of the number of arrests made in 1920, 60.16 per cent were white and 39.84 per cent were colored.

Of the total number of arrests made in 1920, 7,031 were for violation of the speed law, and 9,686 were for violating other regulations relative to traffic, a total of 16,717 traffic cases.

In spite of the tremendous increase in the use of motor vehicles in the District of Columbia during the fiscal year, Washington is perhaps the only of the large cities of the United States which succeeded in reducing traffic accidents. Deaths from traffic accidents during the fiscal year were reduced from 76 in 1919 to 71 in 1920.

Signal Systems—Fire-Alarm Telegraph, Police Patrol Signals and Telephone Service

There were in service on June 30, 1920, 161.68 miles of underground cable, containing 6,359.05 miles of conductor. The aerial cable in service at the end of the year was about 5 miles, containing 156.61 miles of conductor. There were 1,391 telephones connected to the District system at the end of the year and 27 in use as portable sets by fire and electrical departments, a net increase of 44 in the year. There were 695 fire-alarm boxes in service at the end of the year, 595 on underground and 100 on overhead wires, an increase of 20 over the preceding year; 831 box fire alarms and 962 local alarms were received during the year, of which 110 box and 41 local were false.

Health Department—Vital Statistics

The total number of deaths recorded during the calendar year was 6,372 as against 9,582 for the previous year. The death rate decreased from 22.95 to 13.99 for each 1000 of population. The great increase in deaths in the preceding year was due to the epidemic of influenza and pneumonia which accounted for 3,326 deaths, 2,028 of these being from influenza alone and 1,298 from pneumonia. Of the total deaths 6,262 were white and 3,320 colored, furnishing a rate of 20.02 and 31.74 respectively for each 1000 population.

Hospitals, Homes and Asylums

Including Sanitariums and Dispensaries, 24.

Insurance Statistics

There was paid in premiums in the District of Columbia for insurance of all kinds during 1919, $11,880,419.25; losses paid in the District by all companies and associations amounted to $4,721,585.52; the amount of insurance written during the year exclusive of casualty, $3,384,468,379.65.

The assets of all insurance companies and associations transacting business in the District of Columbia on December 31, 1919, amounted to $7,721,083,376.93; liabilities, $6,447,407,750.36; surplus, including capital, $1,273,675,626.57.

Licenses

The receipts from the license bureau for the fiscal year ended June 30, 1920 amounted to $224,777.00. This revenue was collected from the following sources: motor-vehicle tags, operator's permits, miscellaneous licenses, $136,769.60; transfers, $138.50; steam engineers, $147. During the same period for the previous year, $334,371.53 was collected. This denotes an increase of $88,968.57.

Municipal Asphalt Plant

The District of Columbia has operated a portable municipal plant in the repair of asphalt pavements and macadam streets for the past eight years. During the year 1920 the plant was operated for a period of 222 days, with a total output of 179,256 cubic feet of material, or an average of 807 cubic feet daily. This was an increase from the daily output for the fiscal year 1919 of 101 cubic feet. Additional asphalt material for street repairs, supplemental to that furnished from the asphalt plant, was purchased under contract from the Cranford Paving Co. to the amount of 32,357 cubic feet, the total repair material placed on the streets from both sources during the year being 211,613 cubic feet, or 524 cubic feet in excess of that used in 1919, heavy traffic and the desire to thoroughly maintain these surfaces requiring this procedure.

Parks and Parkways

Number of parks 439, number of acres 1,227.

The number of trees planted along the curbs in the streets of the District of Columbia at the close of the fiscal year was 105,399, an increase over the preceding year of 1,145. The mileage of trees, at the close of the year was 592.36, a decrease of 2.06 miles under the preceding year. The amount expended for the planting and care of trees during the year was $62,446.08.

The Public Library

At the close of the year the total number of books in the library was 227,000, a net increase of 10,730. The library also possesses about 50,000 mounted pictures. The total book circulation was 898,513 volumes, an increase of 32,783. A comparison of the 11 months that the library was kept open with the corresponding months of the previous fiscal year reveals a net increase in 1919-20 of 32,783 volumes in the adult circulation. The pictures loaned numbered 66,849. The circulation work was carried on through 131 different agencies—the central library, the Takoma Park branch, 99 grammar schools, 7 high schools, 17 stations, 4 playgrounds, and 3 miscellaneous agencies.

Schools

Public—White 101, Colored 51; total 152. Teachers—White 1,442, colored 654; total 2,096. Pupils—White 45,775, colored 19,523; total 65,298. Value of property, $11,803,320. Parochial and Diocesan 30; miscellaneous 147.

Sewerage System

The construction and maintenance of the sewerage system and the sewage disposal of the District of Columbia is placed under a division in charge of the sanitary engineer, District of Columbia.

The length of main and pipe sewers constructed during the year was 8.47 miles. The total length of main and pipe sewers on June 30, 1919, was 746.31 miles, of which 149.29 miles are main sewers and 597.02 miles are pipe sewers. There was expended during the year on the sewerage system the sum of $312,153.09, and on the sewage disposal system $60,545.68. The total cost of the sewerage system to June 30, 1920, was $14,726,759. The cost of the sewage disposal system to the same date was $5,918,970, making a total cost of the complete system to June 30, 1920, $20,645,729.

Street Lighting

There are 20,000 street lamps of all kinds in the District of Columbia, of which 10,556 are mantle gas, 784 electric arc, 8,125 electric incandescent and 535 street designation lamps. This was a net increase of 350 lamps during the year.

Theatres

Including motion picture houses, 71.

Water Works

Capacity 70,000,000 gallons; daily average number of gallons consumed 62,553,490; value of plant about $18,500,000.

During the year 31,288 feet, or 5.09 miles of water mains of various sizes were laid, making a total length of mains now in the service of 639 miles. The aggregate cost of the water distribution system to June 30, 1920, was $4,139,194.16. There were in service at the end of the year 3,649 fire hydrants, 232 public hydrants, 17 sanitary fountains, 157 horse fountains, 44 deep public wells, and 4 shallow wells.

The cost of operating the pumping engines at the District pumping station was $103,326.98. The total pumpage for the year was 11,623,215,260 gallons and the average daily amount pumped was 62,553,490 gallons. The amount of coal burned was 7,494 tons.

LIBRARY OF CONGRESS

LIBRARY OF CONGRESS, 1st bet Capitol and B se

History—The Library of Congress was established by Section 5 of an act to make further provision for the removal and accommodation of the Government of the United States, approved April 24, 1800. This act granted $5,000 for the purchase of books and for fitting up a room in the Capitol for the collection. In 1814 the collection was destroyed by the burning of the Capitol. In 1815 the Jefferson library of 6700 volumes was purchased from ex-President Jefferson as a basis for a new collection. A fire in 1851 destroyed 35,000 volumes out of a collection of 55,000, including two-thirds of the Jefferson library. By an appropriation of $10,000 in January and of $75,000 in March, for the purchase of books, the library was replenished. The collection was strengthened by the transfer of the Smithsonian library in 1867, consisting of about 40,000 volumes of transactions of learned and scientific societies. In 1897 the main collection was removed from the Capitol to the building erected for it under the acts of Congress approved April 15, 1886, Oct 2, 1888 and March 2, 1889, at a cost of $6,347,000 (limit by law, $6,500,000) exclusive of the land, which cost $585,000. The building was completed in February, 1897; opened to the public November, 1897. The building occupies 3¾ acres, upon a site 10 acres in extent, and is the largest library building in the world. In the decorations some 40 painters are represented—all American citizens. The book stacks contain a total of about 100 miles of shelving, with capacity for 3,540,000 octavo volumes of books and 84,000 volumes of newspapers

Organization—Prior to 1897 the library was administered by the Librarian of Congress under rules and regulations established by the Joint Committee on the Library. In 1897 the Committee stated that an act, approved June, 1867, provided that the Librarian of Congress should have complete and entire control of the library proper, including the copyright business; that he should prescribe rules and regulations under which his assistants were to be employed; and should have the custody and management of the library. Although executive in function, the library is under no executive department of the government; it is rather a dependent of the legislative. The librarian and superintendent of the building submit their annual estimates direct to Congress (where they are considered, not by the Library Committee, but by the Committee on Appropriations); the appropriations granted are controlled and expended direct by them; and they report direct to Congress. On the other hand the library, though still entitled the Library of Congress, is no longer solely nor chiefly a legislative library. In its general relations, character, scope and service it is the National Library of the United States

Divisions—There are seventeen divisions in the library proper, entitled as follows: Reading Room, Bibliography, Binding, Card, Catalogue, Classification, Documents, Mail and Delivery, Manuscripts, Maps and Charts, Music, Order, Periodical, Prints, Semitic, Smithsonian, Law Library. The printing office and bindery, though located in the library, are branches of the Government Printing Office and the employees are on the rolls of the Public Printer. The Legislative Reference Division, established in 1915, undertakes for Congress the service of research and compilation familiar in certain of the states. It does not, however, draft bills. It is provided for by a lump sum appropriation of $25,000 yearly

Hours—On week days (except legal holidays) the library building, main reading room, periodical reading room and law library are open from 9 a m to 10 p m; other parts of the library from 9 a m to 4:30 p m. On Sundays and certain legal holidays the building, main reading room, periodical reading room, division of prints, music division and maps division, are open from 2 to 10 p m, the librarian's office and the office of the chief clerk from 2 to 6 p m

Volumes—The collection is now the largest on the Western Hemisphere and the third in the world. It comprised at the end of the fiscal year (June 30, 1919) about 2,831,333 printed books and pamphlets (including the law library of 190,524 volumes, which, while a division of the Library of Congress, still remains at the Capitol), 166,448 maps and charts, 879,400 pieces of music, and 418,976 photographs, prints, engravings and lithographs

Among the special book collections are the Yudin, of Russian literature (80,000 volumes); the Schiff, of Judaica (about 20,000); the Weber, of India; the Huitfeld-Kaas (Scandinavian); the John Boyd Thacher of Incunabula (930 titles). The Orientalia include some 5,000 volumes (fascicules) of Japanese books and about 40,000 volumes (fascicules) of Chinese. The Division of Prints includes certain collections, given or lent, besides a large mass of material received by copyright and some by purchase The manuscript collections are especially noteworthy for material on American history, some of the most distinguished of which has been received by transfer from the executive departments, the library being now regarded as the main custodian of the historical archive material in the possession of the government. It has the papers of nine presidents and of various American statesmen, Franklin, Morris, Hamilton, etc

The library is copying largely from documents in foreign archive offices, and other institutions, of concern to American history. It has already a large body of transcripts from such sources. This policy of transcribing and copying, where necessary by facsimile, is applied also to maps and to music. Through it, the collection of music, in bulk one of the largest in the world, is especially strengthened in full scores of orchestral and operatic music

The library's sources of increase are: (1) copyright (two copies of articles registered being deposited and available for the library. A deliberate selection for this purpose is made); (2) transfer from other government establishments; (3) international exchange with various governments, 100 sets of all Federal publications being at its disposal for this purpose; (4) exchanges with institutions; (5) exchanges by Smithsonian with other learned societies; (6) gift or bequest; (7) purchase

Circulation—Records of this are no longer published. They are kept in the reading room and other divisions; but as they represent only recorded use, while the more important use, by reason of direct access by investigators to the shelves, is unrecorded, these statistics were incomplete and publication of them was abandoned in 1905

Use—For reference the library is free and accessible without formality. It is under statutory provisions, a lending library for members of Congress and their families and other higher officials of the Government at Washington. Special permits, issued by the librarian, provide for investigators engaged in serious research, and inter-library loans for such investigators at a distance

Publications—The publications of the Library fall into five classes: (1) Annual reports of the librarian; (2) Bibliographies, consisting of exhaustive lists of works contained in the library, such as the list of books on the Philippine Islands, Biblioteca Filipina, etc; (3) Reference lists consisting of select lists on subjects of immediate interest—marine subsidies, reciprocity, trusts, Federal control of commerce, etc; (4) Catalogues of special collections belonging to the library; e g, Catalogue of the Gardiner Greene Hubbard collection of engravings, Catalogue of the John Boyd Thacher collection of Incunabula; (5) Calendars of, and reprints of special collections of manuscripts; e g, Calendar of the correspondence of George Washington, 4 volumes, Journals of the Continental Congress; (6) Reports and compendiums on library history and methods; catalogue rules, classification, schedules, etc. The bibliographical publications and administrative reports are distributed free to libraries and institutions. Copies of most of the publications are on sale by the Superintendent of Documents, Government Printing Office

Printed Catalogue Cards—The most important publication of the library is its printed catalogue cards. Fifty sets are deposited, without charge, in as many different institutions. Copies of the cards are also sold at cost to institutions and individuals. The institutions (chiefly libraries) buying cards number now over 2,000. The cards so bought are placed in their own catalogues. A purpose of the purchase is to save themselves the expense of cataloging certain books in their possession. The sale and distribution of cards is handled by the card division, for the service in which an annual appropriation is made (in 1821 $50,900). The cost of the service is more than offset by receipts of sales (in 1920 $77,155.86) which are covered into the Treasury

Copyright—The Copyright Office, though attached to the library and under general direction of the librarian, is in effect a distinct bureau. The appropriation for it (in 1921, $104,740) is more than offset by fees covered into the Treasury (in 1920, $126,492.25)

Library Staff—The library has 597 employees including in the library proper, 266; Copyright Office, 91; Legislative Reference, 23; department for the distribution of catalogue cards, 69; disbursement service and care of building and grounds, 148. In addition to these are 97 employees, 25 in the Branch Printing Office, and 72 in the Branch Bindery (employees of the Public Printer)

Income—The library is maintained by annual appropriations by Congress, for various purposes, including the purchase of books For the year 1920-21, these amounted to $719,025 (not including allotment for printing and binding, $232,000) as follows: $581,025 for services and contingent expenses (including the Copyright Office, and including also the care of the building); $98,000 for books and periodicals; $18,000 for fuel, supplies and miscellaneous purposes; $12,000 for furniture and shelving; refitting boiler room and coal vaults, $4,000; new roof on attic, $6,000

Expenditures—Expenditures correspond to the appropriations

ARMY AND NAVY UNION OF THE U S A; originally the Regular Army and Navy Union, U S A; organized in the interest of members and ex-members of the Army, Navy, Marine Corps and Revenue Cutter Service of the United States; incorporated under the laws of the state of Ohio, March 31, 1888, with J W John, C G Boyle, D Erwin and T Schlepp as incorporators. Under its charter the Army and Navy Union has become the broadest and most liberal military naval organization. It cares for its sick, buries its dead, provides a death benefit, extends a helping hand, pecuniary and otherwise, as may be necessary; aims to elevate the social and material standing of enlisted men; encourages and abets legislation in their behalf, and as the logical successor of the Grand Army of the Republic keeps green the graves and aims to perpetuate the memory of those who consecrated our nation's soil with their blood during the dark days of '61 and '65. Its charter is perpetual. Its ranks are being recruited continually by younger veterans who are eligible to membership because of service, regardless of time or place. Its membership, numbering thousands—comrades in a common cause, strengthened by those undying friendships formed while in the service of their country—is the fundamental principle of its power and influence National headquarters, Philadelphia, Pa; H Oden Lake, national commander; E P Dunlap, adjutant general. THE GRAND ARMY OF THE REPUBLIC is an organization composed of honorably discharged soldiers and sailors who served in the United States Army or Navy during the War of the Rebellion; its objects are to aid with its charity the maimed and helpless soldier and the dependent families of the fallen; to secure employment for those surviving who have vainly sought for it themselves, and whose tattered uniforms seem an evidence of demerit in the eyes of many who have dared to clothe themselves with it and its dangrous responsibilities; whatever secrecy there is about this organization is only such as surrounds the most benign and powerful civil orders of the day as a necessity for their perfection and strength and to better secure their objects

The United Spanish War Veterans

This organization is composed of officers and enlisted men who served at any time during the war between the United States of America and the Kingdom of Spain, or at any time during the war for the suppression of the insurrection in the Philippine Islands, or in the China Relief Expedition, and who either have been honorably discharged from the service or still continue in the same. It includes all such who served between April 21, 1898, to July 4, 1902

The organization is semi-military and is founded upon the principle of freedom, patriotism and humanity. Its purposes are to aid and comfort those of them and their dependents in times of distress; to foster by all legitimate means the welfare of each other; to promote devotion to country and to flag; to promote and encourage purity in public affairs and to encourage and foster the spirit of true patriotism in the rising generation. Stability AND Permanency

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

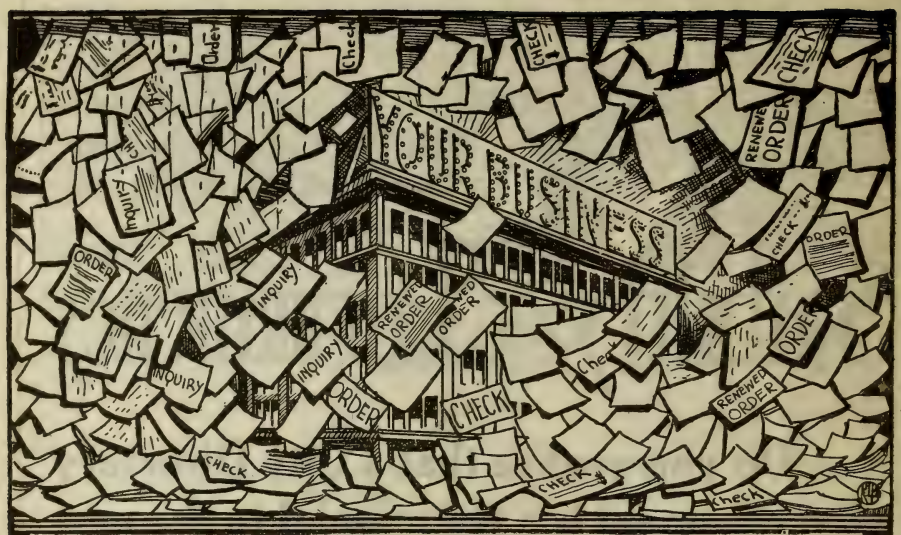
"Fly-by-night," "fire-sale" and other temporary or *"get-rich-quick"* concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

The Publishers of this Directory



Flooded With Sales?

DID YOU ever send out advertising that produced so many inquiries and orders that you were "flooded?"

If so, you know the importance of correct, reliable

Mailing Lists

and are willing to go to almost any expense to get them.

Our mailing lists are not expensive, but they are up-to-date and complete.

As publishers of over 400 Directories we possess list facilities superior to any other list house.

Tell us the class of prospects you wish to reach, and we will offer some suggestions free and without obligation on your part.

Some of the shrewdest advertisers in the country patronize us—why not you?

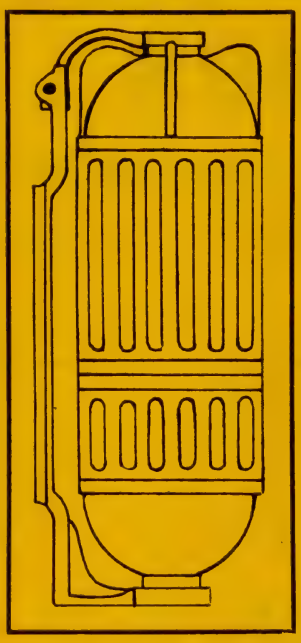
"ADJURIA"

MEANING "AID TO INJURED"

A Complete Emergency Kit Providing Medical "First Aid" at the Critical Moment at the Time and Place of the Accident



FIVE MINUTES spent in cleaning even a slight wound when it first happens, may be worth the combined efforts of FIVE DOCTORS, Five Hours afterwards.

"ADJURIA" contains the following, highly necessary, equipment:

Drinking Cup—Use Small Casing
Mixing Vessel—Use Large Casing
1 bottle Tincture Iodine
1 bottle Aromatic Spirits of Ammonia
1 bottle Extract of Grindelia
1 bottle Syrup of Ipecac
1 bottle Essence of Peppermint
1 bottle Aspirin Tablets
1 bottle Soda Mint Tablets
1 bottle, empty
1 Gauze Bandage, 2 in.
1 Gauze Bandage, 1 in.
1 spool Adhesive Tape, 1 in.
½ ounce Absorbent Cotton
1 pkg. Picric Acid Gauze
1 2-in. Compress Bandage Dressing
3 Finger Dressings
1 Triangle Bandage
1 spool Thread
1 Tourniquet
1 pair Scissors
1 pair Tweezers
1 Medicine Spoon
½ dozen Needles
½ dozen Safety Pins
1 Eye Dropper
1 Fracture Splint Set

All in the compact container, only ELEVEN inches long and THREE inches in diameter.

"ADJURIA" is positive INSURANCE against ACCIDENT INFECTION, COMPACT, EFFICIENT, COMPLETE!

"ADJURIA" is especially designed for Automobiles, Trucks, Railway Trains, Street Cars, Yachts, Vessels and all Public Utilities; it should be in all places of Public Gathering, Factories and Homes, AVAILABLE IN CASE OF NEED!

"DEMAND IT IN ALL THESE PLACES! "ADJURIA IS YOUR INSURANCE!"

"ADJURIA" is, to your body, what the Fire Extinguisher is to your Property; you do not hesitate to protect your property; why not give that far more valuable possession, YOUR BODY, an even chance?

FIRES happen "Once in awhile" and only a few are serious; ACCIDENTS happen "ALWAYS" and even the slightest of them are serious, for the chance of INFECTION is always present; ADJURIA PROTECTS!

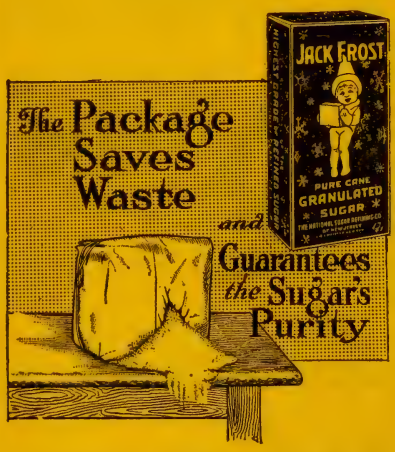
BAKERS SUPPLIES



THE fine, even grain of this sugar makes it more economical, assures absolute dissolution quickly, and does away with wastes.

Package sugar means absolute cleanliness and purity—especially the dainty Jack Frost kind. The carton is air and dust proof and not a hand touches it nor does dust settle on it.

The grocer can furnish you with Jack Frost.

Granulated
Powdered

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.
